# BONNET

Natural cane woven wicker shades curve over exposed light bulbs like the brim of a bonnet on a minimalistic mobile chandelier. The composition of shade and chandelier shape are of a corresponding curvature. The contrast of natural materials and sandy Black silhouette of chandelier form adds nostalgia to an overall modern design. The shades are rotatable under another axis of articulation allowing more flexibility in the design according to your preference.

# BONNET

- Natural Cane woven wicker shades
- Articulating mobile chandelier rotates arms
- Shades can be rotated to face up or down

# BASQUE

The timeless Empire chandelier shape styled in timeworn, natural finishes uses durable steel in a Driftwood finish that includes a spherical ornament in matching finish. The arms curve steeply, swept lower than the chandelier's center, emphasizing the chandelier's height while mitered angles at its top accentuate the thickness of the barrel-like planks. Exposed candelabra lamps on Anthracite candle covers adding texture and contrast. The result of the organic wood tones reduces the formality of the classical shape making the elegance of this design more inviting.

# BASQUE

- Robust steel construction with mitered top edge detail
- Realistic Driftwood finish with coordinating Anthracite accents

# FORMOSA

This series draws inspiration from regal agrarian manors, delivering a statement in its scale and sophisticated finishes. Designed in operatic proportions, the bottom chandelier assembly features swollen curves hand painted in a choice of Ecu white or Golden Noir and suspended by a rigid hook structure replete with vintage charm. These finish combinations not only add dimension and interest, but they are enhanced with the contrastingly brighter accents against the rich, weathered finishes. Extended chain links with smoky beveled crystal charms drape the Ecu and Gold Leaf finish combination, while the darker Golden Noir variation features strands of patinaed silver wooden beads.

# FORMOSA

- Finishes Available: Ecrú White with Gold Leaf accents and smoked beveled crystal | Two-tone Golden Noir with patinaed silver leafed wooden beads
- Hook structure rods support chandelier
- Inconspicuous wire clasps included to cleanly hide wiring

# EDEN

Eliciting a vision of natural beauty, the Eden collection is abundant with hand-crafted details from fabrication to finish. Bunched at the center of the chandelier, a collector features hand-wound wiring that groups a set of gracefully swooping arms that extend outward and branch upward in biophilic form. This coiling detail also suspends crystal adornments from the chandelier frame. Finished in an antiqued Charcoal Gold Leaf, the collection infuses rustic charm and refined simplicity.

# NORMANDY

Gallant in hand-applied Gold Leaf, the Normandy collection is a look befitting a chateau of the Middle Ages. Both traditional and handsome, the exposed candelabras are gilt in matching Gold Leaf sleeves as they perch at the end of decorative bobeches. The sharply-angled curves of the arms anchor to polygonal elements adding a tailored elegance to the chandelier's design. Thoughtful in its composition, the collection provides an authentic interpretation to a classical concept.

# METROPOLIS

A modern take on the classic torchiere, the bright Satin Brass frames support thick textured glass cauldrons illuminated with dedicated LED modules. The 2-Light pendant and swing arm pin-up sconce feature rotatable shades directing the light either upward or cast directionally downward. The deep pattern in the glass sparks curiosity and fascination with its organic and abstract surface. It creates interest in the LED light source behind it while casting even light through the artistic vessels' design. Available in various configurations of pendants and sconces, the collection celebrates classic design concepts in an understated contemporary glamor that results in a composition suited to transitional and contemporary aesthetics. Make a statement with the oversized with the 3-light sconce nearly five foot in height or use the multiple functional pieces for reading over an island.

# METROPOLIS

- Field adjustable cord
- Clear Textured artisan glass vessels

# TAHOE

A refreshing take on reflector shades from the early days of Mid Century modern design, the Tahoe thoughtfully applies LED light to a classic concept. The LED housing that shines light against its metal shade painted white on its interior for better reflection is also punctured with a hole at its apex to cast light on the square-tubed yoke supporting it. Much more angular than the traditional reflecting up-light shaded pendant, this pendant brings more function to its fashion. A convenient LED lamp is also included facing down to illuminate the space below. Finished in a striking Black and Satin Brass combination, this pendant certainly calls attention while casually existing in its space.

# WAFER

Wafer was designed for the discriminate consumer who wants the low profile look of recessed without the high cost. Manufactured of die cast aluminum, Wafer brings ultimate heat dissipation to its edge lit technology. Edge lighting gives very even light distribution while dispersing heat over a larger area. The result of this is longer LED life and better light diffusion.
