

ONE YEAR LIMITED WARRANTY

GARANTÍA LIMITADA POR UN AÑO

Maxim Lighting International warrants this product to be free from defects in material and workmanship for one year from the original date of purchase by the consumer. This warranty is limited to the counter replacement at the time of purchase, with the original purchase receipt, and does not include the bulb. Maxim will not be liable for the loss or damage of any kind, incidental or consequential damages of any kind, whether based on warranty contract or negligence, and arising in connection with the sale, use or repair of the product claimed to be defective. Some states do not allow the exclusion or limitation of incidental or consequential damages so the above limitation may not apply to you. This warranty gives you specific legal rights and you may also have other rights which vary from state to state. Misuse, accident, improper installation or maintenance will also void the warranty.

Maxim Lighting International garantiza que este producto está libre de defectos de materiales y mano de obra por un año a consumidor. Esta garantía está limitada al reemplazo en mostrador en el momento de la compra, con el recibo de compra original y no incluye la bombilla. Maxim no es responsable para la pérdida o el daño de ningún tipo, daños incidentales o indirectos de ningún tipo, ya sea que se base en el contrato de garantía o negligencia y que se reclama como defectuoso. Algunos estados no permiten la exclusión o limitación de daños incidentales o indirectos por lo que tal vez la limitación anteriormente mencionada no se aplique a usted. Esta garantía le brinda derechos legales específicos tal vez tenga otros derechos que varían de un estado a otro. El uso indebido, accidente, instalación o mantenimiento inadecuados invalidarán también la garantía.

Assembly and installation instructions - Important! general instructions - read this page first

- 1) Read and understand all instructions completely, both front and back before proceeding with assembly and installation of this fixture.
- 2) If you have doubts about how to install a lighting fixture, or if fixture fails to operate correctly, please contact a local qualified licensed electrical contractor.
- 3) Before you start:
 - a) NEVER attempt to do any work without shutting off the electricity until the work is done. Go to the main fuse box in your home. Place main power switch in "off" position.
 - b) Unscrew the fuses that control the power to the fixture or room that you are working on.
 - c) Turn fixture to be replaced off! Place wall switch in off position.
- 4) All parts must be used as indicated in the assembly/installation instructions. Do not substitute any other parts, leave any parts out, or use any parts which are worn out or broken. Failure to obey this instruction could invalidate the ETL listing.
- 5) If parts need to be replaced, use only authorized replacement parts.
- 6) Keep this sheet in a safe place and review it before doing any work on the fixture.

The hand-crafted beauty of this fixture is the result of tasteful design, experienced engineering, careful craftsmanship and a dedication to customer satisfaction.

- Be certain electric current is turned off before cleaning.
- Clean metal components with a soft cloth, moistened with a mild liquid soap solution. wipe clean and buff with a very soft, dry cloth.

Instrucciones de Instalación y Ensamblaje - Importante! instrucciones generales - lea esta pagina primero

⚠ WARNING

RISK OF ELECTRIC SHOCK

- Do not use in wet locations.
- Use indoors only.
- Turn power off before servicing - see instructions.
- Ensure that no bare wires are exposed outside the electrical connections.

INSTALLATION PROCEDURES

1. Place the round plastic plate with 2 screw holes to the desired position, with the protruding surface to the cabinet and the flat surface outward.
2. Screw the plastic plate into the cabinet. Place the puck against the cabinet until the plastic plate enters the hole at the back of the puck. Rotate the puck for 90° until it is secured.

3. Follow the instruction above and finish the installation of 3 pucks. Connect these 3 pucks with the connection cord provided, see illustration, and connect the other connector of the end puck with the power cord.

Note: For 87881WT/SV/BK, you can:

1. Connect other puck with the link cord
- OR
2. Connect the power directly

4. Maximum 25 pucks can be linked together in one run.
