PRODUCT DESCRIPTION

High performance and high in style, the Crisp is constructed like a surface mount that can install into a variety of 4-0 junction boxes while designed with a recessed appearance. The fixtures almost impossibly slopes into the junction box with snap in trims in a variety of styles. Purchase the mud-in ring assembly kit and you can opt for a trim-less design. Not only good-looking, each unit also delivers over 1000 lumens providing ample lighting. With its concave design, the light source is obscured from the finished ceiling surface thereby reducing glare. Available in warm 3000K single CCT or 5CCT selectable with an accessible switch behind the faceplate so you can set your preferred light temperature without removing the light from the junction box..
